

Sofia Teleport

Sofia Teleport is one of the most modern, reliable and carrier-neutral collocation centers in Bulgaria. The facility has a fiber optic connectivity to all telecommunication operators in the country. Neterra is part of DE-CIX – the largest independent peering exchange in Europe. Sofia Teleport has a direct connectivity to Neterra's Point-of-Presence at Ancotel, Frankfurt, Germany, through the company's fiber optic network.

THEY TRUSTED ON OUR EXPERIENCE
